## SPRING TERMINOLOGY

### Spring End Types

End Types for one-piece springs fall into these three categories:

### Understanding Part Numbers

Part numbers for one-piece door springs use these codes to indicate End Types, Wire Size, Spring Length and whether a Connector is included.

| Part Number | End Type | Wire Size | Length | Connector Included |
|-------------|----------|-----------|--------|--------------------|
| P928C       | P        | 9         | 28"    | C                  |
| SL728C      | SL       | 7         | 28"    | C                  |
| C328C       | C        | 3         | 28"    | C                  |

\*L = Low Initial Tension (e.g. C128 L C)

### Weight Chart for E900 Hardware Sets

Use this handy chart to determine the correct type and quantity of springs based on the weight of the door.

| Door Weight (lbs.) | Number of Springs | Spring Type |
|--------------------|-------------------|-------------|
| Up to 75           | 2                 | P928C       |
| 90 to 150          | 2                 | P728C       |
| 105 to 175         | 2                 | P528C       |
| 125 to 250         | 2                 | P328C       |
| 150 to 300         | 4                 | P728C       |
| 200 to 350         | 4                 | P528C       |

### Obsolete with Replacements

| Spring Type | Spring Length | Spring Wire | Replace With |
|-------------|---------------|-------------|--------------|
| P715.5      | 15.5          | 0.177       | None         |
